Our project form: an Audio Ad In 3 steps.

Our audio project form is simple and straightforward: it asks the right questions to get all the essentials, and from there, our team of creative professionals takes over.

Just tell us what you need, and we'll handle the rest in less than 24hs.

Give your project a title

This is the title of the project

Tip: Be mindful not to include any sensitive information in the title. It will never be retrievable by search engines, but it remains public for everyone interacting with your project.

Add variations: dynamic script

If you already have the script and need multiple assets for one campaign with only slight variations, we offer the possibility of adding them **in the same project** and voiced **by the same talent** via our **variant tool**.

The screenshot displays a user interface for creating script variations. It features two distinct sections, 'Variant 1' and 'Variant 2', each with a 'Custom file name (Optional)' field and a 'Part' label. Variant 1 is labeled 'Part 1' and contains a text area with the script 'This is the first part of the script. This is the CTA number 1.' Below the text area, it shows '14 words | Approx. 6 second(s)' and a 'Generate script with AI' button. A tip icon and text are also present. Variant 2 is labeled 'Part 2' and has an empty text area for the script, with the same word and time count. A 'Remove' button is located to the right of the Variant 2 header. At the bottom, a summary bar indicates '2 variants | 28 words total | Approx. 12 second(s)' and includes an 'Add another variant' button. A red arrow points to this button. A note at the bottom right states 'Each extra variant adds USD 1 to your project summary'.

What you'll get

A .wav and a .mp3 post-produced ad in the language of your preference, performed by a native-speaking voice artist.

Voice-over library

We offer the possibility of choosing the voice-talent for your project. You can browse our [entire library](#) and sort our talents by age, gender, language, accent, purpose, style, and pricing.

We also offer a [white labeled and price-free library](#) to share with third party clients!

The screenshot displays a web interface for a voice-over talent library. On the left, a sidebar contains filter categories: Language, Gender and age, Purpose, Style, Pitch, Impersonation, and Character, each with a plus icon. Below these is a 'Clear all Filters' button. The main area is a grid of 12 voice talent profiles. Each profile includes a play button, a waveform, a duration, a language/accent description, a 'Share' button, a profile picture, a name, and a rating with a number of reviews. The talents shown are: Janelle B., David L., Tiffany T., Drew G., Rich B., Lori K., Craig V., Shawn M., Andrea, Seth F., Dana W., and Katie W.

Audio Ad Demo: how to submit a project

The screenshot shows the BunnyStudio website interface. At the top, there's a navigation bar with the BunnyStudio logo, a currency selector set to "EN (USD)", a "Log in" link, and a "Sign up" button. Below the navigation bar, there's a main heading "Hassle-free voice overs, audio, and video services at scale". Underneath this, a subtext states: "Get high-quality services, delivered by pre-vetted professionals around the world and scaled with the power of AI. No hidden fees. **Full media buyout rights, for any use, forever.**".

A search bar is present with a dropdown menu showing "All services" and a search input field containing "Search for 'blog content'". Below the search bar, there are filters for "English UK", "Motion graphics", "Female - all ages", and "Male - Middle age". A link "Do you have a complex project? Talk to us →" is also visible.

A prominent orange button labeled "Browse samples" is located below the filters. To the right of the text, there's a circular graphic featuring two portraits of people (a man and a woman) with various icons (clapperboard, play button, microphone) and a rating of "4.7 Excellent" with five stars. A link "Read the reviews on Trustpilot" is also present.

Below this, a section titled "Popular audio and video services" displays a row of service categories with icons and arrows: "Voice overs →", "Audio ads →", "Video →", "Translation →", "Dubbing →", and "All services →".

At the bottom, a grey banner states "Trusted by 50,000+ clients globally". A small orange chat icon is visible in the bottom right corner.

Review, approve, download and share assets with your team

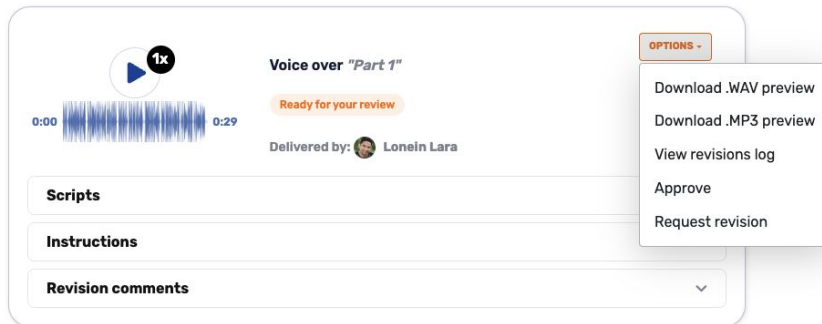

Shareable Assets

We know that every campaign needs a round of approvals.

Before approving a deliverable, **download** and **share** the asset with your anyone you want for review.

All deliverables

All status

The screenshot displays a user interface for managing deliverables. At the top, it says "All deliverables" and "All status". Below this, a card shows a voiceover asset titled "Voice over 'Part 1'" with a status of "Ready for your review". The asset is delivered by "Lonein Lara". A play button icon with "1x" indicates the playback count. A waveform visualizer shows the audio duration from 0:00 to 0:29. An "OPTIONS" dropdown menu is open, listing actions: "Download .WAV preview", "Download .MP3 preview", "View revisions log", "Approve", and "Request revision". Below the asset card, there are sections for "Scripts", "Instructions", and "Revision comments".
